

Journey of the Chip Bag

Where Bags Were Found When Pets Suffocated:

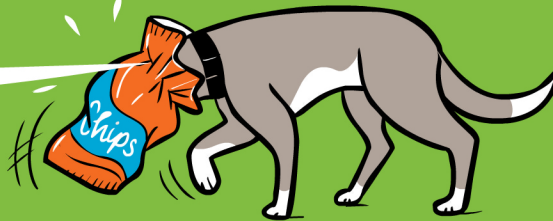

In or near the garbage	24%
On a coffee or side table	20%
On the counter	15%
Outside/In the yard	4%
On the kitchen/dining table	7%
In or near the recycling bin	3%
Other (e.g., backpack, car, pantry)	22%
Don't know	5%

A PET CAN LOSE THEIR LIFE IN UNDER 5 MINUTES

41% of people were HOME when it happened
Of those who were out, 17% were gone less than 15 minutes.

Bag
TIGHTENS
when pet
inhales

MYTH BUSTER:

Doesn't Only Happen to Small Pets

More than 57% of the dogs who suffocated weighed OVER 30 lbs.
18% weighed OVER 60 lbs!

DOGS and CATS suffocated in:

Chip (snack) bags 68%
Pet food/treat bags 12%
Cereal box liners 6%
Bread bags, plastic containers, and more 14%

Store in plastic containers

with an opening that your pet
can't stick their head into

CUT all bags TWICE

It'll save your pets – AND strays and wildlife, too!

SOLUTIONS

PreventiveVet.com/pet-suffocation

Serve snacks in a bowl

Never eat out of a bag
